

## Worth the Price?

Usmnews.net reporters reached out to colleagues from University of Wisconsin-Whitewater to gather information concerning the Saunders, Amodeo, idgroup connection. In response, we received the [attached document](#) that sources claim to have cost the taxpayers of Wisconsin in the \$40,000 range. UW-W's "strategic plan" under Dr. Saunders is long on "we must," "we desire", "we aim" and short on plans how to implement Dr. Saunders desires and aims – strategic or otherwise.

Was it worth the cost? We look forward to hearing what our readers think.
